

# P011 – Silver Glitter

## **Product Description**

P011 is an air dry powder metallic glittering additive that is glass based and silver coated. It can be mixed with various toners to enhance the sparkling effect, which is commonly found in newer OEM colors. A layer of silica makes this product durable and withstanding.

## **Features & Benefits:**

- Provides accurate glitter effect found in many newer colors

## **Composition:**

- Glass flakes with silver and silica coating

## **Recommended Addition Levels:**

- As per formula in GenMix

## **Thinning After Addition:**

- As per GenRock or Gen20 TDS
